PROFESSIONAL SUMMARY

Results-driven UI/UX Designer with over 1 year of professional experience in creating intuitive digital products, dashboards, and enterprise systems. Adept at bridging the gap between design and development by leveraging strong frontend skills in React.js. Passionate about transforming complex workflows into clean, developer-friendly, and responsive user interfaces.

CORE SKILLS

- UI/UX Design:** User Interface (UI) Design, User Experience (UX) Research, Wireframing, Interactive Prototyping, Component Libraries.
- Frontend Development:** React.js (Hooks, Components, State Management), JavaScript (ES6+), HTML5, CSS3.
- CSS Frameworks:** Tailwind CSS, Bootstrap (Foundational knowledge).
- Tools & Version Control:** Figma, Git, GitHub.
- Languages:** Urdu (Fluent), English (Professional).

TECHNICAL PROJECTS (REACT.JS PORTFOLIO)

Charity Management System for Donation & Request Handling (Academic Project - In Development)

- Designing and developing a comprehensive web application using React.js and Tailwind CSS to streamline donation flows and donor-request tracking.
- Working individually to architect the system software requirements (SRS) and interactive interface layouts (Design Document).

Interactive CRUD & Enquiry Form (React & Tailwind)

- Developed a dynamic form application with full insert, update, delete operations, managing state and data flow with real-time validation logic.

E-Commerce Product Search & Filter System (React.js)

- Built a responsive product showcase with multi-category filtering and real-time live search functionality using React state management.

Weather Forecast Dashboard (React & Fetch API)

- Implemented an interactive dashboard that fetches and displays real-time weather data from external web APIs using asynchronous JavaScript.

WORK EXPERIENCE

UI / UX Designer , Sumato Solutions

September 2025 – Present

- Designed user-friendly interfaces for ERP systems and SaaS-based applications, with focus on dashboards, workflows, and visual hierarchy.
- Created wireframes and interactive prototypes for web and mobile products, then collaborated with developers for accurate implementation.
- Improved existing screens and maintained consistency through reusable components and design patterns.
- Key projects: GuardWise (court/case management platform), Custom ERP (Sales, Inventory, Finance, Reports dashboards), OBH construction services platform, and Accura Resourcing Limited security management platform.

Freelance UI/UX Designer

April 2025 – August 2025

- Practiced UI/UX design by working on real-world projects, including websites and basic application interfaces.
- Created wireframes and UI mockups to improve design thinking and problem-solving skills.
- Collaborated with a small team to understand project requirements and deliver design solutions.
- Applied foundational front-end knowledge (HTML, CSS) to ensure practical and feasible designs.

EDUCATION

BS in Software Engineering

- Virtual University of Pakistan | 2024 — Present
- Currently in Final Year, focusing on User Experience Design and Software Architecture.

Associate Degree in Computer Science (ADP CS)

- Virtual University of Pakistan | 2022 — 2024
- Specialized in Core Programming and Database Management.
